FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Prosecution Services, Office of the State Courts Administrator** and the **Department of Public Safety** each assume the proposal would not create a fiscal impact to their respective agencies.

For the purpose of this proposed legislation, officials at the **Office of State Public Defender (SPD)** cannot assume that existing staff will provide competent, effective representation for any new cases arising where indigent persons are charged with the enhanced penalties of receiving stolen property.

Passage of bills increasing penalties on existing crimes, or creating new crimes, requires the State Public Defender System to further extend resources. While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional funding for this specific bill, the SPD will continue to request sufficient appropriations to provide competent and effective representation in all its cases.

Oversight assumes the SPD can absorb the additional caseload that may result from this proposal.

Officials from the **Department of Corrections (DOC)** state this bill proposes to revise the punishment for the crime of receiving stolen property. The penalty provision component of this bill resulting in potential fiscal impact for DOC, is for up to a class B felony.

Currently, the DOC cannot predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in direct offender cost either through incarceration (FY10 average of \$16,397 per offender, per day, or an annual cost of \$5,985 per inmate) or through supervision provided by the Board of Probation and Parole (FY10 average of \$3.92 per offender, per day or an annual cost of \$1,431 per offender).

In summary, supervision by the DOC through probation or incarceration would result in additional unknown costs to the department. Seventeen (17) persons would have to be incarcerated per each fiscal year to exceed \$100,000 annually. Due to the narrow scope of this new crime, it is assumed the impact would be less than \$100,000 per year for the DOC.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

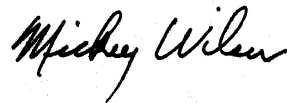

FISCAL DESCRIPTION

This proposal revises the punishment for the crime of receiving stolen property. Current law states receiving stolen property is a class A misdemeanor, unless its value is \$500 or more, in which case the crime is a class C felony. Under this proposal, if the value of the property exceeds \$25,000 or if the person charged with this crime has certain prior convictions, the crime is a class B felony.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
